

Lea Hill bio

Lea Hill is the Autism Program Coordinator for the DDS Northeast Region. The position was created in response to the 2014 Autism Omnibus Law which expanded DDS eligibility to include adults with autism regardless of intellectual disability. This role involves providing support, training, and guidance for ASD Service Coordinators, Supervisors, and Area Directors for this newly eligible population. Lea works closely with providers and direct support staff on their training needs, issues and challenges they're facing while serving adults with autism, and celebrating successes along the way. Lea is a member of four of the Autism Commission's Sub-Committees, the Youth At Risk Planning Committee, and the North Shore Community Health Network.
