

Sensory Integration Group for Parents/Caregivers:

Join us for this highly requested program

Equipping parents with the knowledge, confidence and tools to understand **Sensory Integration and Processing** in their child's daily life.

Sensory Integration/ Sensory Processing

The way a person receives and interprets information from his or her body and the environment, and uses that information to perform functional tasks.

Details:

- April 26th - June 14th
- Tuesdays, 10am
- 8 weekly one hour sessions
- \$299.00/program

Note: child care options available, please inquire
