

Employment Services

Employment Services offers creative and effective job training, paid job opportunities, activities, and transportation for adults with disabilities.

Participants acquire the vocational, social, and personal skills necessary to work in the community and are placed in offices, restaurants, retail stores, schools, farms, and hospitals. Individuals work in small job crews or in individual competitive employment. They may also participate in Community Based Day Services when not at work.

Individuals can access a variety of options:

- **Individual Employment** matches employees with jobs according to their interests and abilities, coaching them to achieve success at the work site.
- **Group Employment** combines individuals into teams, working to complete crucial tasks at community sites under the supervision of a Minute Man Arc job coach.
- **Community Based Day Services** enables participants to choose activities designed to help meet Individual Service Plan goals in addition to holding a job or instead of attending the Day Habilitation program. Individuals are offered a wide variety of outings and activities to help explore their interests and increase community access.
- **Woodland Wonders** (coming in 2022)

Program location: 35 Forest Ridge Road, Concord, MA 01742
